

Alexandria Gazette.

THURSDAY EVENING, MARCH 16, 1893.

## LOCAL INTELLIGENCE.

Sun rises to-morrow at 6:03; sun sets at 7:10. High water 7:10 a. m. and 7:25 p. m.

**WEATHER PROBABILITIES.**—For this section fair until Friday morning, cloudy Friday, possibly light snow or rain Friday afternoon or night; slight rise in temperature; winds shifting to easterly.

**PERSONAL.**—The Washington correspondent of the Richmond Dispatch says: "Mr. Meredith has had a perfect siege of work, and he has remained in that city steadily, but he has been able to accomplish very little except to go to the departments to introduce applicants. Mr. Meredith seems to think that Colonel S. Wellford Corbin, of King George county, has a good chance of being appointed Assistant Secretary of Agriculture when the time comes to act, but a change even there will hardly be made inside of a month."

Mr. J. S. Harbour Thompson, superintendent of the Richmond and Danville railroad, is still in New York. He is recovering his health slowly but will not return to Richmond until about the middle of April.

Dr. George Wythe Cook, who is well known in this city, at the recent session of the Medical Society of the District of Columbia was elected its President.

**SUIT.**—Judge Keith, who is now holding a term of the Circuit Court for Richmond for Judge Lamb, yesterday granted an injunction restraining Mr. Peter Wise from conveying to Mrs. Louisa Packwood the farm in Fauquier county known as "Woodstock" which was sold on certain conditions to Mr. Joseph H. Nelson in November, 1888. It appears that Mr. Nelson, after making certain annual payments of \$2,400, was unable to comply with the terms of the agreement, which agreement, he sets forth in his bill, he signed under a misapprehension. He now asks for an annulment of the contract of sale, and, if that be denied, for a modification of the agreement.

**FIRE ALARM.**—During the prevalence of the high northwest wind last night considerable commotion was produced in the city by an alarm of fire and the spirited ringing of the bells on the engine houses. A light in the north-west had caused all the excitement, and numbers ran in that direction. The farther they ran, however, the farther off seemed the conflagration until finding the cause as unsatisfactory as pursuing rainbows, they slackened their pace and finally returned home. It was subsequently learned that the light was caused by Mr. Dave Pettit who was burning brush on the old Marshmore race track, near St. Asaph Junction.

**FELL DOWN STAIRS.**—An old colored woman named Fairfax created considerable commotion at the Alfred street Baptist Church last night by falling headlong down the stairs just as the congregation was being dismissed. She fell into the vestibule and was stunned, but those who witnessed the accident supposed she had broken her neck. She was resuscitated, however, later and taken to her home on Royal street, near King. Though considerably bruised and shocked, it is thought her injuries are not of a serious nature.

**THE WEATHER.**—Six weeks ago to-day the ground hog, according to tradition, emerged from his winter quarters, and as the day was cloudy and rainy, it was supposed by many that the winter was over. But instead there have hardly been six days of good weather since then, and last night the mercury dropped to 24 degrees. However, as the six weeks have passed, as to-morrow will be St. Patrick's Day, and as the equinoctial storm will soon have rolled by, we may expect spring weather within a week.

**ST. PATRICK'S DAY.**—The Young Men's Sodality Lyceum will celebrate the anniversary of St. Patrick, which occurs to-morrow, by giving an entertainment in their hall, on Duke street, in the evening, commencing at 8 o'clock. The exercises will consist of literary and musical selections and an address by Rev. Father Chester, of Georgetown College, D. C. The entertainment will be complimentary, and cards of admission are now being distributed by the members.

**WANT TO LOCATE HERE.**—A delegation of gentlemen from Pennsylvania were in the city to-day looking for a suitable site on which to locate an establishment for the manufacture of glass. These gentlemen have been here before and are much pleased with the advantages of Alexandria as a manufacturing city. They have received offers from other places to locate in those cities but they say they would rather locate in or near Alexandria if they can secure a favorable site.

**POLICE REPORT.**—Last night was clear and cold. One prisoner and several lodgers were at the station house. Justice Thompson disposed of two cases—all there was on the docket—to-day this morning.

A white man, charged by his brother-in-law with habitual drunkenness and vagrancy, was sent to jail.

A young white man, for disorderly conduct toward an officer, was fined \$2.50.

**LADY VISITORS.**—The Martha Washington Club, composed of ladies residing in Washington and whose mission is the alleviation of the necessities of the poor, visited this city yesterday and were escorted to Christ Church, the Masonic Lodge, and other places of note. Sixteen of their number were entertained at dinner at the Concordia Hotel and the club returned to Washington late in the evening after a most enjoyable visit.

**ANNIVERSARY.**—Yesterday was the anniversary of the blizzard of 1888, and forty-nine or fifty years ago to-night Mr. Thomas Campbell, a well-known Alexandrian, was frozen to death in Broad creek, Md., a few miles below this city.

The Grand Council Royal Arcanum will meet in Richmond next week.

The best he has ever tried, E. G. Bowling, Esq., Aquasco, P. O., Md., one of the largest planters in that section of the State writes: "I take pleasure in recommending Dr. Bull's Cough Syrup as the best remedy for coughs and colds I have ever tried. Both myself and family have used it with most satisfactory results."

## LOCAL BREVITIES.

Mr. Joseph Byrne, of Richmond, father of Mr. Joseph Byrne, of this city, died yesterday.

The remains of Mrs. Helen Wimsatt were brought here from Washington to-day and interred.

In the Corporation Court to-day an order was entered allowing the trustees of Trinity M. E. Church to place a mortgage of \$2,000 on the parsonage of that church on Prince street.

Rev. R. A. Castleman, of Falls Church and Herndon, will preach in Grace Church to-morrow (Friday) at 7:30 p. m., and on Saturday at 7 a. m.

The jail examiners, Dr. Purvis and Messrs. C. W. Moore and J. C. Carlin, examined that institution to-day and found that institution in an excellent condition.

The Christian Endeavor Society of the M. P. Church will hold a temperance service on next Sunday night. A regular programme will be rendered, consisting of responsive reading, songs and a temperance address by Rev. W. M. Poisel. The public is invited.

Two youths of this city yesterday evening rowed across the river in a yawl boat, and later, when they attempted to return, the wind and waves were too high for them to do so. They subsequently secured the services of two Marylanders to row them to this city and reached their homes about 8 o'clock last night, much to the relief of their anxious parents.

Mr. John T. Stone will have for sale on the Strand to-morrow a supply of fine clams and oysters—large and well flavored.

Marriage licenses were issued in Washington yesterday to Charles E. Dillon and Etta Thomas, both of Caroline county; Robert Wilkerson and Naomi Rhoads, both of Spotsylvania county, and to Francis C. Wallace of Alexandria, and Irene E. A. French.

Messrs. Helmut & Bro. have sold three acres of land north of the old fair grounds to Messrs. Suter and Wheat for \$8,000. The property will be improved by the erection of several buildings thereon.

## BY TELEGRAPH.

Wiped Out the Pirates.

SAN FRANCISCO, March 16.—The steamship City of Rio de Janeiro has arrived from Yokohama and Hong Kong. A Yokohama paper prints an account of the extermination of a band of pirates in a Chinese village in January. On January 15th last two piratical craft having run into one of the numerous inlets near the city of Fan-Tu for shelter, some of the pirates landed, ostensibly for the purpose of making a few purchases, but most likely to see if any business could be done in their particular calling. Probably the ruffians thought they and their junks were sufficiently disguised, and so that by merely informing the shops at which they called that they were traders who had run in for temporary shelter, they could allay suspicion regarding their real calling. But Fan-Tu had suffered repeatedly from depredations from numerous pirates along the coast and had lost some of their numbers at the hands of the desperadoes. It happened that some of the pirates who landed that day were recognized by inhabitants who, however, held their tongues while the pirates were in sight. No sooner had the men returned to their junks than the alarm was silently given, and the principal men of the village immediately called upon two brothers who were officers belonging to one of the regiments garrisoning Ningpo. A consultation was held, at which the brothers were asked to lead their fellow villagers against the pirates. Accordingly 300 well-armed villagers surprised the pirates during the raging of a storm in the early morning. The two pirate junks were surrounded. In another minute the junks swarmed with the villagers, who burst open the hatches and doors of the cabins and poured a stream of bullets upon the fifty or sixty pirates, who were huddled together for warmth on the lower decks. All of the pirates but two were killed at once, and the survivors were offered up as special sacrifices to the spirits of friends who had been killed by pirates.

**Foreign News.**

LONDON, Mar. 16.—The election in Bannshire, Scotland, yesterday of a member of parliament to fill the place of Robert Wm. Duff, liberal, recently appointed governor of New South Wales, resulted in the choice of Sir William Wedderburn, liberal. Sir William is descended from an ancient Scottish family, which supported the cause of the exiled Stuarts.

Mr. Gladstone is rapidly recovering from his indisposition.

LONDON, Mar. 16.—The half-yearly meeting of the Bank of England was held to-day. Governor Powell announced a dividend of 4 1/2 per cent. Referring to the Baring liquidation Governor Powell stated that the operations of the past six months had reduced the liabilities by more than half a million pounds, making the total a little over four and a half millions of pounds. The guarantors had decided to continue one-fourth of their original guarantees—that is, be responsible for one-fourth of the amount for which they were originally responsible—beyond the original date of the expiration of the guarantees in November next.

## Railroad collision.

PORT JERVIS, N. Y., Mar. 16.—The east-bound Erie passenger train No. 12 was run into by No. 10, another passenger train, at Lackawaxen, 23 miles west of Port Jervis, at 5 o'clock this morning. The rear Pullman sleeper was demolished and ten passengers, the occupants of the coach, were injured, some of them seriously. No. 19 was waiting at the station for a locomotive to replace one which was disabled. The other cars were uninjured and no passengers in them were hurt. They were shaken up badly by the shock. The injured passengers were brought here and placed in the Hunt Hospital where their injuries are being attended to.

## Lynched.

MONTGOMERY, Ala., March 16.—Residents of Brundige hanged Tom Brunson, colored, late yesterday afternoon at Munn's Hill. A day or two ago Brunson went to the house of Charles Senn, where he was met by Mrs. Senn, who told the negro her husband had gone away for the night. As she turned to go back the wretch followed her, jelled her to the floor with a big stick and criminally assaulted her. He was run down yesterday and lynched by a mob. In the search for Brunson another criminal assault was caught, and it is supposed he was lynched too.

## Driven from Town.

MARION, S. C., Mar. 16. B. W. Crowe and his family have been driven from the town of Nebo by anonymous threats, destruction of their property and fear of assassination because his daughter taught a school for negro children. On Saturday night the school was overturned and destroyed. Mr. Crowe has received anonymous letters threatening him with death unless he left the town before April 1st. He departed yesterday.

Turn Hall, in Paterson, N. J., was totally destroyed by fire early this morning. Seven firemen were injured, and it is believed that two of them will die. The loss is estimated at \$75,000. An ex-policeman named Krine Overbeck, died from injuries received by falling from an alarm wagon while en route to the fire.

Andrew Johnson, a Swede, enroute from Chicago to New York with his family, is missing, and it is believed he was robbed and murdered. He had \$1,500 in his possession and was last seen on the train near Massillon, Ohio, with four strangers, thought to be Chicago gamblers. His fur cape, stained with blood, was picked up near Massillon yesterday.

The federal services over the body of Alice Leonide Cozzens, the suicide, took place this morning at 240 West 160th street, New York, and were conducted with great secrecy. Coroner Messner when asked if there were any new developments in the Cozzens case, said that he had been informed on excellent authority that a reputable elderly woman had declared that Miss Cozzens was secretly married, but she would make no positive statement or reveal her name or address until she had made sure of the identity of the suicide.

A professor of the Imperial University of Japan says in a lecture on the "collision between education and religion," that all emperors are revered as divine in the Shinto Creed and that the Japanese nationality rests on this creed. There is an attempt being made on all sides to settle the problem of religion and its politico-social bearings. Buddhism shows an energetic revival of activity. The conflict between Christians and their antagonists arises from the revived nationalism of the Japanese people which has been gathering strength for the past five years.

Recorder Smythe, in New York, to-day denied Carlyle Harris a new trial. The decision concludes: "A careful examination of all the facts and circumstances established upon the trial of this cause, as well as of the additional facts which have been presented upon this motion by way of newly discovered evidence, leads me to the conclusion that if the defendant had produced the so-called newly discovered evidence or so much of such evidence as could be legally admitted upon the trial, it would not have changed the verdict that was rendered against him. The motion therefore is denied."

While a Pennsylvania railroad engine was going down the mountain this morning it became disabled and was run on to a siding near Delano, Pa. A man who was sent out to protect the engine, turned the main switch. A Lehigh Valley engine, drawing fifteen gondolas and a tool car, came around the curve at a rapid rate of speed and dashed into the disabled engine. All hands jumped. Both engines were wrecked and cars piled up in confusion. A cook on the tool car was thrown through the window and badly injured. The car immediately took fire and was destroyed. Conductor Kleckner of the Lehigh Valley train had a leg broken in jumping, and Engineer Shuman of the Pennsylvania had an arm broken.

The annual meeting of the Massachusetts Woman's Christian Temperance Union, held last evening in the Trinity Methodist Episcopal Church, East Cambridge, Mass., was abruptly interrupted by the sudden death of one of the speakers, Rev. Wm. Graham, pastor of the First Reformed Presbyterian Church

of Boston. Mr. Graham was introduced to speak on the "Temperance Outlook." He arose and said: "I came out of a sick bed to show the side I am on." The sentence was hardly spoken when he fell back dead.
